

## Quality Systems Specialist

9/25/2009

### Job Description

**ThyssenKrupp** is a global leader in carbon and stainless steel with a proven track record of innovation, corporate citizenship, social and environmental responsibility, employee safety, and customer satisfaction.

We are seeking an experienced **Quality Systems Analyst** to assist with the development of ThyssenKrupp Steel's developing mill operations in Calvert, Alabama.

Our **Quality Systems Specialist** will:

- Be responsible for developing and deploying ISO specifications across the entire organization
- Work with the Business Units to establish business processes in a "Greenfield" landscape
- Facilitate working sessions with the Business Units and 3rd party vendors to ensure the quality of business process documentation and that governance policies are followed
- Develop an internal audit program
- Coordinate with the Business Units with continuous quality improvement initiatives
- Provide direction and supervision to team members, as required during the development cycle of assigned projects
- Collaborate with Business Units to define Key Performance Indicators (KPIs) and metrics for use of monitoring their processes

### Job Requirements

Our Quality Systems Specialist will have:

- 3 to 5 years experience with defining and developing Quality Management Systems that consider the impact on organization, systems, and key performance indicators
- Bachelors Degree or equivalent combination of education and experience
- Proficient in ISO requirements, such as ISO/TS 16949, ISO 9001, ISO 18001, ISO 14001, etc.
- Knowledge of Quality Management Principles, e.g., Lean, Six Sigma, etc.
- Able to facilitate Quality System sessions to gather requirements to meet ISO requirements
- Excellent organizational skills, very good oral and written communication skills, with ability to work effectively with diverse groups of people

- Excellent analytical, mathematical and creative problem solving skills
- Experience with BPM or QS software (Nimbus, IBM, etc.)
- Proficiency in MS Office products
- Steel industry or other continuous manufacturing experience helpful
- ASQ certification is a plus
- Interest and ability to work at our site operations in Calvert, Alabama
