

Hyundai Metaplant Educational Tour

Thursday, November 12 | 9:00 AM – 10:00 AM

Step inside **Hyundai’s cutting-edge electric vehicle manufacturing facility** for a rare look at next-generation automotive production and advanced manufacturing technology.

ABOUT HYUNDAI METAPLANT

Hyundai Motor Group Metaplant America (HMGMA) represents one of the most significant automotive investments in U.S. history. Located in Bryan County, Georgia, this state-of-the-art facility is purpose-built for electric vehicle production, combining advanced robotics, sustainable manufacturing principles, and next-generation assembly processes. This tour offers AWMI members a valuable glimpse into the future of automotive manufacturing.
